Subject: Yes to Revised Master Plan Order

Dear Councilors: We are writing to express our support for the revised Master Plan order on the Agenda of tonight's City Council meeting. Given the intense levels of continuing, new and proposed construction at Northpoint, Kendall Square, Central Square, Fresh Pond and Alewife Brook, Cambridge is in desperate need of a Master Plan to help assess, coordinate and integrate these changes. Both the impacts on and the needs of the residents of Cambridge need to be at the forefront of the Master Plan development process.

More detailed arguments developed for the prior Council discussion can be found at http://www.CambridgeResidentsAlliance/master_plan.

Sincerely,
Jonathan King
