City Councilors,

I'm here speaking regarding the Normandy/Twining up zoning petition and the perceived influence of money on Cambridge politics. The last few months have seen a spike in campaign contributions from people affiliated with the Normandy/Twining petition to six City Councilors. To cite former Mayor Ackerman,

these contributions may comply with campaign finance law, however they also come with the "appearance of impropriety."

For the integrity of the process to be maintained, it is essential these appearances of impropriety be lifted. I therefore urged the city councilors to never accept, and return any contributions to their campaign that might create these appearances. Here included is the records of the said spike in contributions for the public record.

The information included can be found online at:
