Subject: linkage vote tonight

dear councilors,

i urge you to accept the mit study's recommendation to raise the linkage fee to \$24.30/sq ft, rather than the "discounted" fee of half that. i am a low income resident living in cambridge—quite happily—since 1989. my ability to remain here and contribute to the community thru friends meeting at cambridge (quakers) and thru my public interest photography depends on support such as would be provided by this higher linkage fee.

thank you for considering this fairly.

—Skip

Manliness consists not in bluff, bravado, or loneliness. It consists in daring to do the right thing and facing consequences, whether it is in matters social, political, or other. It consists in deeds, not words.

—Mahatma Gandhi
