To the Honorable Cambridge City Council:

I am unable to attend this evening's City Council meeting. Therefore I am sending in my comments; please add them to the record.

The Richard Ave neighbors have attended the PB meeting, the Ordinance Committee meeting, and a City Council meeting concerning the Stern Petition. We have been advised by all these parties to work on a solution acceptable to all with the developer himself. For this to happen, the developer must put forth a new proposal which recognizes some of our objections so we can begin a dialogue. To date, this HAS NOT HAPPENED.

I call upon City Council to issue an official communication to the developer to do this. It was considered in the Ordinance meeting; NOW it needs to happen.

Thank you for your consideration.
