80

To The Honorable City Council:

I am writing in support of Councilor Decker's City Council Resolution 28 on July 30th. The Production Tax Credit (PTC) was first enacted by Congress more than twenty years ago to level the energy playing field for the wind industry. The PTC has been so successful that the American wind industry has grown to employ more than 75,000 Americans nationwide and close to 500 here in Massachusetts. The the PTC is set to expire at the end of this year and the wind industry is planning on losing 37,000 jobs unless Senator Scott Brown takes action to vote for an extension. The wind industry is made up of high quality jobs that are built to last in the 21st century that cannot be shipped overseas.

Sincerely,

Andrew Grande
Sierra Club Massachusetts

COM 2012 #343

Communications #80

A communication was received
from Andrew Grande, Sierra Club
Massachusetts supporting Resolution
#28 on the Production Tax Credit.

In City Council July 30, 2012
