RE: **File No. 6633 – Solar Energy Photovoltaic System and installation at the Walter J. Sullivan Water Purification Facility - Addendum No. 1**

The following question was submitted and answered:

Question: We are not a contractor but design and engineer PV systems. We also manufacture the racking and ground mount structure. In most cases we engineer the system up to local requirements and hire local installers and electricians for to complete the job under our supervision. My question is, considering this structure, are we still eligible to bid on this project or is it open to companies with contractors licenses only?

Answer: All parties desiring to submit general bids must submit with their bids a copy of the Contractor's certificate of eligibility (DCAM Form CQ7) and an update statement (DCAM Form CQ3) in the category of Electrical. Failure to submit these required forms with the bid will result in rejection of the bid.

All other details remain the same.
