Petition of NSTAR Gas Company, pursuant to G.L. c. 25, § 21, for approval by the Department of Public Utilities of its Three-Year Energy Efficiency Plan for 2013 through 2015.

On November 2, 2012, NSTAR Gas Company ("Company"), filed with the Department of Public Utilities ("Department") a petition for approval of a three-year energy efficiency plan, covering calendar years 2013 through 2015 ("Three-Year Plan"). The Company filed its Three-Year Plan pursuant to An Act Relative to Green Communities, Acts of 2008, c. 169, § 11 ("Green Communities Act"), and Investigation by the Department of Public Utilities on its own Motion into Updating its Energy Efficiency Guidelines Consistent with An Act Relative to Green Communities, D.P.U. 08-50 (2008); D.P.U. 08-50-A (2009); D.P.U. 08-50-B (2009); D.P.U. 08-50-C (2011); D.P.U. 08-50-D (October 19, 2012). The Department has docketed this matter as D.P.U. 12-105.

The Green Communities Act requires the Commonwealth's electric and gas distribution companies, and municipal aggregators with certified efficiency plans ("Program Administrators") to develop energy efficiency plans that provide for the acquisition of all available energy efficiency and demand reduction resources that are cost-effective or less expensive than supply. G.L. c. 25, § 21. To accomplish this goal, Program Administrators are required to develop three-year energy efficiency plans, in consultation with the Energy Efficiency Advisory Council ("Council"), and submit such plans to the Department. G.L. c. 25, § 21. Once a plan is submitted, the Green Communities Act requires the Department to: (1) consider the plan; (2) provide an opportunity for interested persons to be heard in a public hearing; and (3) within 90 days after the submission of the plan, issue a decision on the plan that ensures that all energy efficiency and demand reduction resources that are cost-effective or less expensive than supply have been identified and captured by the Program Administrator. G.L. c. 25, § 21.

The Company's proposed Three-Year Plan includes energy efficiency programs for residential, low-income, and commercial and industrial customers. The Plan also includes the Company's Residential Conservation Service (RCS) filing. The Company's proposed budget for the three-year period is \$140,399,583 (\$43,400,580 in 2013, \$47,075,719 in 2014, and \$49,923,284 in 2015) and includes a performance incentive and lost base revenues.

If the Company's Three-Year Plan is approved as proposed, the Company states that its proposed rates will have the following effects:

- A typical residential heating customer (R-3) using 131 therms per month could experience a monthly peak bill increase of \$7.16 or 4.5 percent in 2013; \$0.79 or 0.5 percent in 2014; and \$0.87 or 0.5 percent in 2015.
- A typical residential low-income (R-4) customer using 120 therms per month could experience a monthly peak bill increase of \$5.36 or 4.4 percent in 2013; \$0.59 or 0.5 percent in 2014; and \$0.64 or 0.5 percent in 2015; and
- Bill impacts for commercial and industrial customers will vary. These customers should contact the Company for specific bill impact information.

Customers who participate in energy efficiency programs may experience a monthly bill decrease over the duration of the Three-Year Plan. For specific bill impacts, please contact the Company as indicated below.
