Name	Location	Date	Comment
Tim Waterbury	Winchester, MA	2013-01-24	Turf does not save money it is bad for the environment and for the body resulting in more injuries.
stephen rushmore	cambridge, MA	2013-01-24	Grass is good.
Eric Anderson	Cambridge, MA	2013-01-24	Turf leads to injuries
Jonathan Nilsen	Hopkinton, MA	2013-01-24	I used to live in West Cambridge and regularly went to Danehy park to play on GRASS. More importantly, however, I have been playing with an Ultimate Frisbee group there for the better part of a decade, and grass is substantially a better and preferable surface to play on than the less-forgiving proposed turf option. PLEASE KEEP THE GRASS.
Chris Heppner	Salem, MA	2013-01-24	I love grass!
Erin Geno	Somerville, MA	2013-01-24	turf is harder on your knees, i much prefer grass
Anna Henchman	Arlington, MA	2013-01-24	Please think longterm about the benefits of grass and greenspace in the city as opposed to plastic turf. I am sure that the residents of Cambridge would be glad to work on the grass. One of the things that makes Cambridge an extraordinary place is that it combines lovely gardens, trees, and grass with the diversity and excitement of a city.
Byron Pavano	Wellesley, MA	2013-01-24	Maintaining 2 fields as grass is a great idea.
Rachel Henke	Cambridge, MA	2013-01-24	Astroturf is artificial and not inline with going to the park to enjoy nature/the natural environment.
Will Malan	Cambridge, MA	2013-01-24	If Cambridge can come up with the money to install a turf, they should be able to come up with the money to maintain a reasonable grass field. Keep it grass!
Bryan Gould	Wayland, MA	2013-01-24	There's nothing better than well kept natural grass.
Joseph Aiello	Cambridge, MA	2013-01-24	It's a sad day when saving a few bucks outweighs the safety of children/adults who use that field.
John Obelenus	Cambridge, MA	2013-01-24	I play on these fields all the time
Becky Owens	Watertown, MA	2013-01-24	I lived around Cambridge for about 8 years and played frisbee, a very positive sport, dozens of times a year at Danehy. It was the artificial turf; as our summers get hotter, they hold more heat, making the park and city (heat island effect) less bearable and exercise more dangerous. Plastic turf is also harder on the joints and skin (burns when one falls). Environmentally, aside from not needing energy for maintenance, it is abominable. Besides reducing the city's green space, it is negative for carbon storage, the plastic degradation smell and leachate are unhealthy, and ecosystem services like storm water runoff quantity and quality management are eliminated. Strong, well aerated and naturally treated (no chems) real grass fields are infinitely preferable. I cannot fathom referring to Cambridge as an Eco and public health conscious city if it cannot come to more creative and sustainable solutions.
Daniel Carbone	Singer Island, FL	2013-01-24	Let's stop plastic and stay natural.
Adam Fischer	South Boston, MA	2013-01-24	Grass is way better than turf
janet randall	cambridge, MA	2013-01-24	please please please conserve the green space. More oxygen, more contact with NATURE for our nature-deprived city children.
Elgar Pichler	Wellesley, MA	2013-01-24	Grass is better for the environment, and artificial turf is much harder on the body than grass.
Maria Capello	Cambridge, MA	2013-01-24	We love the natural oasis of Danehy in the city!

Name	Location	Date	Comment
johanna kasubowski	cambridge, MA	2013-01-24	keep things cooler, keep the grass.
Julia Teller	Cambridge, MA	2013-01-25	I like grass because I can just lie on it and it doesn't hurt.
Julie Croston	Cambridge, MA	2013-01-25	Children in a city need to feel, smell, and see real grass. There are health benefits to experiencing nature, and though grass is a very small example of nature, it is an important one for urban kids.
Cristina Ullmann	Cambridge, MA	2013-01-25	Grass for worms, bugs to feed the birds and other wildlife...
Alexandra Kepner	Cambridge, MA	2013-01-25	Our environment doesn't need more plastic--I prefer real grass to astroturf.
Sara Levine	Cambridge, MA	2013-01-25	I love the grass. That's what a park is about for me. Real plants and open space.
Angela Pendleton	Cambridge, MA	2013-01-25	It is an outrageous proposal to take real grass playing fields away from children. OUTRAGEOUS.
Sarah B. Stewart	Cambridge, MA	2013-01-25	Green grass is lovely, I love to sit on it, have picnics on it, and just plain look at and smell it!
Allen Pacheco	Cambridge, MA	2013-01-25	Plastic is not for people, it's for robots.
Annette Klein	Cambridge, MA	2013-01-25	Our family spends many hours a month exploring the grassy areas of Danahey park. You can't roll down plastic turf hills, and isn't that just a must as a young child? Danehy is one of the very few places in Cmbridge where you have undisturbed grass areas (for example, no traffic nearby).
Nicole Newendorp	Cambridge, MA	2013-01-25	My kids love playing on the grass fields at Danehy.
Ann Sweeney	Cambridge, MA	2013-01-25	1) My child plays sports on those fields and fake turf has been shown to lead to increased risk of injury 2) Think green Cambridge! Natural grass over petrochemically-produced astroturf, please! Thank you.
Pia Cisternino	Cambridge, MA	2013-01-25	In an urban space such as Cambridge, it is important for people to have natural spaces too. To take away one of the few natural spaces would have a negative impact on our community.
Laurie Richardson	Cambridge, MA	2013-01-25	Replacing nature (grass) with industrial (plastic turf) is a terribly short-sighted, environmentally backward approach. When kids and adults go outside to play, they (we) WANT to be able to be grounded to the real thing!
prasad ramakrishna	newton, MA	2013-01-25	kids need to learn to play on grass. Who is benefiting from this move other than contractors.
Eileen Babbitt	Cambridge, MA	2013-01-25	High priority to keep our neighborhood aesthetically pleasing and provide a natural environment without synthetics
Leah Klein	Cambridge, MA	2013-01-25	I really think natural grass is important especially on a site such as Danehy. I think the added heat that turf creates will be problematic for the environment. We love Danehy and if there's no grass there we're likely to try to find some somewhere else which would be a shame considering that Danehy is our park.
Raymond Traietti	Cambridge, MA	2013-01-25	My My son and I play soccer at Danehy we want real grass. Even with bare patches it is better than turf. Ray
Pamela Steiner	Cambridge, MA	2013-01-25	I enjoy walking on the GRASS and deeply AND superficially dislike fake grass. On the whole, your department has been doing a good job in improving QUALITY and bringing attractive elements of nature into the city, which sorely lacks it. Don't do this!
Abby Steinberg	Cambridge, MA	2013-01-25	It is important to have real grass for all Cambridge residents to enjoy. Plastic turf would be a travesty!
Sara Finison	Malden, MA	2013-01-25	I think real nature is cool!

Name	Location	Date	Comment
Leslie Brunetta	Cambridge, MA	2013-01-25	Cambridge aspires to be green. Installing astroturf would be a step backwards. Please investigate ways to maintain the fields in a more natural way, even if the grass is less "pristine."
nicolai cauchy	Cambridge, MA	2013-01-25	Grass is NOT more expensive in the long run, PLUS it is important for the ecosystem (btw what happens to goose poop on astroturf???). Pls KEEP da GRASS!
Sue Vargo	Cambridge, MA	2013-01-25	we play soccer, walk the dog, play baseball, bike here...love the grass! the turf field is great but one is enough!
Cecile Garcin	cambridge, MA	2013-01-25	Preserve nature in the city.
Shaun Logan	Melrose, MA	2013-01-25	Plastic turf fields have their advantages, but so do grass fields. Keep some fields as grass, please.
Ellen van Bever	Cambridge, MA	2013-01-25	Danehy park is a treasure for those who live in and around Cambridge. Putting turf instead of grass in those fields would forever change the nature of that park. I was so impressed by Danehy when I moved here 4 1/2 years ago. It is a gem. Please keep the grass fields!
Adam Schwartz	Bedford, MA	2013-01-25	Grass is much better.
Sharon Lozada	Cambridge, MA	2013-01-25	Natural grass is what makes Danehy so beautiful and so appreciated by all who have the good fortune of having such a wonderful park in our community.
Mary Cusic	Cambridge, MA	2013-01-25	This is my backyard and there are better ways to deal with drainage issues than adding more plastic. Please don't cause more run off down the lower parts of the park (my backyard and basement) by putting a plastic, non draining material on the high parts. Plant more willows!
Tom Culotta	Cambridge, MA	2013-01-25	I live behind Danehy and I do not want the plastic run off to come into my backyard.
Caroline Falk	Cambridge, MA	2013-01-25	Not only the people use this park. It is a habitat for many animals. Please do not remove what little nature we still have left!
B. Adler	Cambridge, MA	2013-01-25	Toxic run-off . When an artificial field drains after a heavy rain, the run-off (which may contain lead and infill material) could leach into and contaminate a community's ground and drinking water. increased MRSA risk . Open skin lesions (so-called "turf burns") put athletes at increased risk of MRSA. Studies have shown that athletes who use synthetic turf are seven times more likely to receive turf burns than those who play on natural grass. These open lesions are often the source of contracting and vehicle for spreading dangerous infections. In fact, a 2003 study of MRSA infections among St. Louis Rams football players found that all eight MRSA infections began at turf burn sites. Bacterial breeding ground. Medical experts have found that staphylococci and other bacteria can survive on polyethylene plastic, the compound used to make synthetic turf blades, for more than 90 days. Blood, sweat, skin cells and other materials can remain on the synthetic turf because the fields are not washed or cleaned. Adverse affect on asthmatics . Breathing in dust of ground-up tires could exacerbate breathing problems for asthmatics. Once artificial, always artificial . Once a community goes with artificial turf, it has no choice but to install another artificial turf field when the first one needs to be replaced because once plastic replaces natural grass, it kills any living organism in the subsoil making it impossible without years of soil remediation to grow anything on that surface.
Mark Rosenstein	Cambridge, MA	2013-01-25	I go to Danehy to watch birds and other wildlife. Open grassy areas are an important, but vanishing habitat in the city.

Name	Location	Date	Comment
Laurie Singletary	Cambridge, MA	2013-01-25	NO PLASTIC GRASS IN CAMBRIDGE!!
Celeste Ng	Cambridge, MA	2013-01-25	We take our son to play at Danehy all the time--it's very close to our house. Plastic turf is NOT the same! Please don't change to plastic!
sherry Leffert	Cambridge, MA	2013-01-25	I bird and photograph in this area and the birds will be threatened and eliminated
MaryCatherine Chaikin	somerville, MA	2013-01-25	we love the grassy fields
David Bean	Arlington, MA	2013-01-25	Just visit Peirce Field in Arlington on any sunny warm day to experience the blast-furnace effect. You can feel it radiating 50 yards away.
John Sharp	Arlington, MA	2013-01-25	Danehy is a wonderful place for birds, even with all the human activity there. Plastic will not work, and the birds will go elsewhere, and Cambridge will LOOK green but will BE LESS GREEN.
Aaron Falk	Cambridge, MA	2013-01-25	Grass is attractive, smells good, and promotes local wildlife.
john dailey	lexington, MA	2013-01-25	Important habitat for birds; therefore good birding
Joyce Maxwell	Winchester, MA	2013-01-25	I believe that natural grass is much better for the environment, compared with artificial turf.
Sarah Block	CAMBRIDGE, MA	2013-01-25	My daughter plays soccer on these fields regularly.
Maria Aliberti Lubertazzi	Arlington, MA	2013-01-25	I don't like the use of artificial grass, where (semi-) natural grass, or other plants, can grow
Sarah Packard	Cambridge, MA	2013-01-25	KEEP THE GRASS!
Susan Dowds	Cambridge, MA	2013-01-25	It destroys bird habitat and the turf is ugly
Arthur Robinson	Cambridge, MA	2013-01-25	In addition to recreation, Danehy is an excellent environment for birding (the marsh, sparrow hill, the margins around the fields, and so on). Artificial turf is not wildlife friendly.
CRaig Slatin	Cambridge, MA	2013-01-25	I walk my dog in the park twice a day and play there and spend time there with neighbor's kids. This grass space is valuable and an important asset to our neighborhood and the city. Instead of putting toxic plastic grass in place, why not fix the stairs between the upper park and the St. Peter's field. This has been put off for more than 5 years now. We need the stairs fixed and the drainage improved. These are things we need. The park is steadily being rebuilt to meet the needs of renting sports teams from outside of the city. The park is for a natural respite first, revenue generation way after that.
Paul Series	Arlington, MA	2013-01-25	I've been playing Softball at Danehy for 14 years...
steven orzack	cambridge, MA	2013-01-25	astroturf is ugly and is dangerous to play on. It also reduces the desirability of the habitat for birds and their prey.
judith perlman	Cambridge, MA	2013-01-25	I walk in Danehy Park for health and fitness and strongly prefer grass to turf
June Doliber	Cambridge, MA	2013-01-25	protect the habit for sparrows and migrating birds and humans!
Laura Runkel	Cambridge, MA	2013-01-25	I enjoy the natural grass at the park and do see that astroturf would be preferable. Please keep the grass growing here - I think it is more versatile for all users/uses of this park. Thank you for your consideration to our concerns.
maria grazia lolla	cambridge, MA	2013-01-25	please, we need more not less grass. imagine the heat nad the stench in the summer
Nancy Pendergast	Cambridge, MA	2013-01-25	Our environment.

Name	Location	Date	Comment
Brian Kopperl	Cambridge, MA	2013-01-25	1. We love soccer without our children getting burned legs 2. we love grass, b/c it's natural and right 3. this is a city, it needs its green spaces 4. Cost isn't everything 5. what about the birds and animals who are our partners in life?
Clarissa Atkinson	Cambridge, MA	2013-01-25	I walk there!
lakshmi mudunuri	cambridge, MA	2013-01-25	We don't need more artificial products in the park and there is more that can be done to keep it lovely such as more regular trash clearance, while sports teams generally generate a lot of trash already which takes away from the beauty of the park to be enjoyed by young children, adults and seniors
Nadja Gould	Watertown, MA	2013-01-25	important to preserve the bird life on Danehy, which this would seriously harm
Leslie Kramer	Medford, MA	2013-01-25	Birder, Cambridge Public Schools teacher who leads walks for students at Danehy Park!
Lisa Fitzgerald	Cambridge, MA	2013-01-25	Real grass for walking, birds, life, playing. Please.
Judith Hunt	Cambridge, MA	2013-01-25	Danahey is a treasure. To have access to open space with natural and native vegetation is good for creatures great and small and for the well being of the planet.
Shelley Evans	Cambridge, MA	2013-01-26	Can't say it better than others have-- the park is a precious resource, a great green space in an urban landscape. Let's keep it real.
Paul Peterson	Boston, MA	2013-01-26	bird enthusiast and nature lover
Mary (Florrie) Wescoat	Cambridge, MA	2013-01-26	It's not environmentally sound.
Neil Rosenberg	Cambridge, MA	2013-01-26	Well being of our young and older athletes
Nadia Colburn	Cambridge, MA	2013-01-26	Grass is safe, clean, natural and beautiful and we love to play on it in Danehy park. Please don't replace it with artificial, toxic turf! Protect our children and our environment!
Robert Riman	Cambridge, MA	2013-01-26	In addition to the myriad well articulated arguments already stated against this action, I would add habitat loss to the list. Though living turf is hardly known for supporting great biodiversity, it literally abounds with life in comparison with plastic turf.
Anita Wagner	Cambridge, MA	2013-01-26	Grass is natural; astroturf is artificial plastic
Sharon Dombeck	Arlington, MA	2013-01-26	To preserve urban bird habitat
Rebecca Meyers	Cambridge, MA	2013-01-26	This is an *outdoor* park and should be kept all grass. The livelihood of the birds and insects, an ecosystem countless Cambridgians enjoy, is in jeopardy.
Liz Ramras	Arlington, MA	2013-01-26	why are you doing this? Is it to take jobs away from the people who would provide care for the fields. why not have beautiful green grass and provide jobs.
jennie rathbun	arlington, MA	2013-01-26	I object to destroying bird habitats.
ernst karel	Cambridge, MA	2013-01-26	Is this a joke? Replacing grass with plastic is a ridiculous idea in every way.
Helen Mirra	Cambridge, MA	2013-01-26	It is a park! A rare green space, and green is not only a color, indeed the color is only a signifier of some plants aliveness, and this is what we need to live with, other life!!
Alice hall	Cambridge, MA	2013-01-26	Walking my dog on real grass
Becky Sarah	cambridge, MA	2013-01-26	plastic "turf" is ugly, much easier to get hurt if you fall down on it, and most important the toxicity of this plastic as it degrades.

Name	Location	Date	Comment
KATINA LEODAS	CAMBRIDGE, MA	2013-01-26	Danehy is the most beautiful and one of the most used parks in the city. It is a place close to nature and natural grass is part of that beauty and appeal. PLEASE do not replace it with something fake and plastic!
Ken Eisenstein	Cambridge, MA	2013-01-26	not saving money by staying off artifice is important training for building the cheapest greatnesses overall
Morgan Butler	Winchester, MA	2013-01-26	As a frequent bird watcher at Danehy, I am especially worried about the effect of synthetic grass on birds and wildlife, the loss of their habitat.
Ife rollins	Cambridge, MA	2013-01-26	This is my neighborhood and it is a jewel. It's a community miracle to have a former dump become again a natural beauty. Protect the green, living grass on the playing fields.
Benjamin Jordan	Cambridge, MA	2013-01-26	From Monsanto's AstroTurf website: "Current products incorporate modern features such as antimicrobial protection, rubber infill, backing systems and nylon yarn fibers and plastic". What a horrible thing to do to a park. Are we so short-sighted to think that replacing grass with a petroleum product is a good long-term investment?
Claudia Thompson	Cambridge, MA	2013-01-26	This is bad ecological management. Allowing the normal ecology of the soil to function is essential to any healthy ecosystem-- to the health of not only the grass but the trees and all the plants that grow in that system. Most likely, living turf is better for human health as well. Putting a layer of plastic between all human activity and the soil ecosystem is a bad idea. What happens to the errant dog feces (yes, we know they are not supposed to be there) that won't even be broken down sitting on a plastic layer, and no longer the capacity of rain to wash it into the ground? In addition, it is a much less pleasant experience to walk or play on plastic than on living grass. If additional expense is required, it is money well spent for the ecological integrity of the park and for the human experience.
Kathy Roberts	Cambridge, MA	2013-01-26	This is the largest grassy area for families to bring children to play. Plastic Turf is unsafe for all living things. It is an unhealthy way to save money.
Tara Morin	Cambridge, MA	2013-01-26	Cambridge, MA should be progressive enough to not bulldoze our natural green space in favor of faux.
Susan DeAngelis	Cambridge, MA	2013-01-26	How can plastic be better than real grass? As a place that prides itself on being a tree city, a livable city and a great place to raise children, let's keep our fields truly green.
Hilary Hopkins	Cambridge, MA	2013-01-26	Danehy Park, with its lovely grassland, is one of the treasures of our city. We are astounded and dismayed that they might be paved over. We walk there every day and are always so thrilled to see the wildlife that enjoys the grassland, as well as us: squirrels, rabbits, robins, Monarch butterflies, and so much else. Please spare this wonderful resource. Do not pave it over with virtual grass.
Kelly Liu	Acton, MA	2013-01-26	keep nature!!!
Eva S. Moseley	Cambridge, MA	2013-01-26	It seems perverse, when everyone is (or ought to be) worried about global warming to replace grass, a natural "carbon sink," with a petroleum by-product. And I second all the reasons others have expressed about health, safety, the soil, blrds, etc.
Jeannie Parkus	Somerville, MA	2013-01-26	We all need as much green real space as possible to grow, thrive, fall down on, plant dig in and be.....IT is the most important thing ever!

Name	Location	Date	Comment
megin charner-laird	Cambridge, MA	2013-01-26	Please keep in mind the safety and environmental impact of astroturf.
Lisa Liu	Cambridge, MA	2013-01-26	I play here during the summer. The grass is so much softer when I fall, and I dive a lot!
Angelica Harter	Cambridge, MA	2013-01-26	I walk my dog at Danehy Park at least 3 times a week. This is a horrible, horrible, horrible idea. It is bad for the environment, bad for bird life, bad for animals and humans. Does everything have to be converted to plastic?
Marianne Jensen	Cambridge, MA	2013-01-26	Plastic turf-ugh! Hard on the body for sports & not good for wildlife. It is not necessary to do some the mowing that I have seen at Danehy.
Lowry Pei	Cambridge, MA	2013-01-26	Because it's better for that surface to be alive than dead. And Cambridge is not broke; we can afford to maintain the grass.
Douglas Dodds	Cambridge, MA	2013-01-26	I walk through Danehy Park frequently in all seasons, and am at least somewhat surprised and definitely opposed to the idea that the city would even consider artificial turf on the playing fields. I note that the soccer field in the infield of the running track has already had plastic turf installed, perhaps a year ago. What other fields are planned for this environmentally bad stuff? There are at least two other soccer fields and three small baseball/softball fields in the park, not to mention the two larger baseball fields in the adjacent St. Peters Field. The petition should have more documentation, including pointers to any online City documents.
Marilyn Gardner	Cambridge, MA	2013-01-26	Dangers of artificial turf to the health of Danehy Park users, especially children.
pat rathbone	watertown, MA	2013-01-26	I bird there with Monotomy bird club; I take my dog there, too. I lived on Pemberton St when Danehy was being constructed and love it.
Esther C Williams	Cambridge, MA	2013-01-26	I walk there a lot, and enjoy seeing the birds and nature. Plastic grass would detract from my and the birds' experience.
Catherine Carpenter	Cambridge, MA	2013-01-26	I walk my dog at Danehy everyday and she loves the grass fields. Also, we Cambridge humans are lucky to have that green soul-restorig, natural area in the middle of a small,crowded city. Astro turf just doesn't cut it.
Arthur Dion	Newton Highlands, MA	2013-01-27	I've played in the Cambridge Independent Softball League for over 20 years with Waldorf, the 2012 champs. Turf is harmful to athletes and all who play on it. Please reconsider this bad idea.
Jane Martin	Cambridge, MA	2013-01-27	The fields should be natural grass Jane Martin
Judith Weinstock	Cambridge, MA	2013-01-27	i use Danehy and have grandchildren who will use the fields
AUDREY ENTIN	CAMBRIDGE, MA	2013-01-27	Grass is better -- for people and birds.
BRENDA ENGEL	cambridge, MA	2013-01-27	Danehy Park is so wonderful and beautiful. Replacing the grass with astroturf is going to kill its aesthetic and practical .quality. DON" T DO IT!!
Mary Bonina	Cambridge, MA	2013-01-27	I am a runner who uses Danehy Park many times a week. I revel in the fact that the place is a haven for nature in the middle of the city -- shopping center, major intersection, public housing and other housing developments. I can go there and feel like I connect with nature. I love smelling fresh cut grass and watching hawks swoop down on empty soccer fields and grab grass snakes they've seen from on high. I love seeing dirt on the uniforms of soccer players and watching the birds line up as if they were there own team. Please leave the grass where it is growing and maintain it that way. Do not put down artificial turf. Do not spoil this nature sanctuary. I have always thought Cambridge was more conscientious than that.
irene korOnas	cambridge, MA	2013-01-27	why would anyone want plastic grass. i need the reality of being on real grass. if you want a list of where to save money please let me know
Richard Harter	Cambridge, MA	2013-01-27	Danehy is good as it is.

Name	Location	Date	Comment
Richard Fox	Worcester, MA	2013-01-27	Grass is natural. Turf causes injuries. Turf in Cambridge is just wrong.
Miriam Berkley	NY, NY	2013-01-27	Grass smells good and is good to breathe. It can be cut and it grows. It attracts worms and birds. Horrible to think of replacing fresh grass with dead plastic. Grass is good for the environment plastic is bad. Awful idea to put down plastic turf.
Susan Mortimer	Arlington, MA	2013-01-27	My two children are now grown, but I always enjoyed our frequent trips to Danehy. These days I enjoy walking at the park. Please don't replace grass with plastic! Thank you.
Margot Welch	Cambridge, MA	2013-01-27	So many important reasons: see comments!!!
Elizabeth Greywolf	Cambridge, MA	2013-01-27	nature versus more plastic? I think it's obvious why it's important.
Hilliard Hughes	Cambridge, MA	2013-01-27	1.Huge up front installation cost 2.Never installed correctly 3.Need re-install or expensive on going maintenance (rivaling or exceeding grass fields) 4.They are grass to play on
Justin Baker	Cambridge, MA	2013-01-27	Grass is great. Turf is lame. I'd rather pay a bit more in taxes if necessary to fund the maintenance.
Joan Krizack	Cambridge, MA	2013-01-27	Please don't put down more plastic turf than is already in Danahey Park! Natural grass fields are preferable as playing surfaces and ecologically. I can't believe Cambridge is seriously considering more plastic grass....
Erin Cooney	Cambridge, MA	2013-01-27	I lived in Cambridge for about nine years and some of my fondest memories are of walking my dog in many of the city's parks. Danehy Park is a wonderful green oasis in the middle of an urban setting. Don't ruin it!
Maria Vetrano	Cambridge, MA	2013-01-27	Grass fields are so much nicer than turf. Please keep them!
Mai Vu	Belmont, MA	2013-01-27	I like to take my kids for a stroll and run on the grass fields there.
Phyllis Bretholtz	Cambridge,, MA	2013-01-27	Please keep the grass. This is just one of many experiences associated with grass at the parks, but it is representative. Every June I attend Girls Sports Day, when all the 5th grade girls in Cambridge come to Danehy Park for a day of athletic activity. I have been attending and photographing this event for more than 5 years. I see the girls gathering on the grass to begin the day, eat lunch, play games, listen to inspirational speakers. I cannot imagine these events taking place on the rigid surface of artificial turf. Please keep the grass.
Matthew Mazzotta	Cambridge, MA	2013-01-27	I would like to know more about the proposal and to understand why the city wants to make the fields synthetic. It would be great if the city would post the plans online somewhere so we could know exactly what is going on and why. As a parent of soccer playing kids, I know that many of the fields in the city are in rough shape because (1) they get tons of use and (2) sports like soccer and ultimate frisbee put a lot of wear and tear on the fields. But instead of taking away grass fields, an alternate solution might be to re-evaluate the city's field space allocation and open additional fields to mixed sport use. For example, we have a lot of recreational space in Cambridge devoted to fenced-off baseball fields which get relatively less use, particularly during the fall (e.g., the Tobin School fields). If the city got rid of some of the outfield fencing, there might be more open space for mixed sport use. Fields that were in bad shape could potentially be given a season off to be reseeded and recover.
Samuel Keyser	Cambridge, MA	2013-01-27	Playing on astroturf is like ice-skating on plexiglass, a poor imitation of the real thing.
David Eisen	Cambridge, MA	2013-01-28	Grass is safer and looks better.

Name	Location	Date	Comment
Elizabeth Locke	CAMBRIDGE, MA	2013-01-28	Grass is better for humans, animals, and the environment. Please keep it!
Akim Lennhoff	Cambridge, MA	2013-01-28	Agree with the points from previous postings- I find playing on turf to cause leg burns. In addition, the little rubber(?) pellets that end up in your shoes are most annoying.
Elizabeth Seelman	Cambridge, MA	2013-01-28	Birding and enjoying the outdoors are 2 of my great loves. The richness and variety of birds at Danehy is very special. Please don't plasticize the park.
Diane Adler	Somerville, MA	2013-01-28	Please do not replace the grass with plastic! It is harmful to the environment and not visually appealing. With proper maintenance the fields can be managed. We love to walk and picnic at Danehy Park. The birds and other small animals will also be adversely affected by the plastic turf. Don't go down a path that will be very expensive to undo at some future time. Stay natural Cambridge!
Abby Rockefeller	Cambridge, MA	2013-01-28	Plastic is not life; grass is life.
Heather Soukup	Middleton, WI	2013-01-28	The black rubber dots that come with turf are a big pain in the butt. When I play on turf, I have to take off my shoes every half hour to get rid of the dots, or else I get blisters from them. Also, grass fields smell better and are better for the environment.
Richard McDonough	Irvine, CA	2013-01-28	I lived in Cambridge on Franklin St for years, love the city, and can not believe the un-greenness of this proposal. I would organize a sit-in to prevent the loss of natural turf were I still there. Please do not approve this measure.
Wea Hildebrand	Cambridge, Denmark	2013-01-28	We need more green for people and animals not horrible plastic.
Hannah Gold	Cambridge, MA	2013-01-28	Replacing real grass with astroturf would be shamefully destructive!!!!
Harvey Kaufman	Cambridge, MA	2013-01-28	For all the reasons accompanying the petition: nature, safety, the environment, the smell of mowed grass. What's the rationale for astroturf?
Charles Teague	Cambridge, MA	2013-01-28	Artificial turf has some benefits but the costs on injuries to adults & children is too high. Some of these injuries appear later in life and are under-reported. Artificial turf is not worth the savings.
Martin Bakal	CAMBRIDGE, MA	2013-01-28	Astroturf is tough on the joint, gets extremely hot during the summer, and is just bad for the environment.
Heather Cosby	Newbury Park, CA	2013-01-28	When I take my kids to the park, one of their favorite things to do is just lay and roll on the grass. Children are sensory and connecting with nature- even just green grass and dirt- calms them emotionally, teaches them about nature, and is just plain more fun.
Emily Newmann	CAMBRIDGE, MA	2013-01-29	Kids love this park and it is a great place for families to gather. It is a central community meeting place!! It needs to stay this way!
Justin May	Monkton, VT	2013-01-29	Plants not plastic!
George White	Cambridge, MA	2013-01-29	My family and I have enjoyed Danehy Park for more than a decade. Switching to plastic turf might save on maintenance, but the grass is a better surface for all of the users of the park.
Mary Lou Miller	Boston, MA	2013-01-29	This is our favorite Boston area park, and we love to walk around the grassy fields that are so beautiful. This is the main park that we take our Cambridge grandchildren to play. It would be a tragedy to have plastic turf instead of green grass there. We all love it because of the green grass, hills, pond and play equipment.
David Updike	Cambridge, MA	2013-01-29	I hate turf...ugly, and dangerous....not what soccer is meant to be played on...
Rosemary Putnam	Cambridge, MA	2013-01-29	Danehy is a wonderful place for birds and bird-watching; birds and plastic grass don't mix, however!

Name	Location	Date	Comment
rachel gunther	cambridge, MA	2013-01-30	Living in a city, maintaining REAL green space is important to all of us. it's not fun or pleasant to play on plastic!
AJ Hinkens	Middleton, WI	2013-01-30	Ultimate is a better sport when played on grass.
Dianne Haas	Somerville, MA	2013-01-31	A really bad idea to use artificial turf. Bad for the ecosystem, bad for our health. Cambridge should be embarrassed by even suggesting this.
Leslie Cohen	Cambridge, MA	2013-01-31	better for animals and better for children to have real grass -- even though I know it's more costly to keep up.
Nancy Menzin	Cambridge, MA	2013-02-02	We live in the city and need as much of nature around us as possible. Plastic is not natural!
Olivier Appaix	Cambridge, MA	2013-02-02	Youth soccer coach for 15 years, player for over 30 years, using turf and grass field at Danehy almost every week I can testify that there's nothing like grass. Turf is fine in winter as snow melts and it does not freeze. But we are so happy to get back to our old grass field, even if it's a bit bumpy. Turf would cost 1m \$ per field, when grass needs a little mending every year, patching here and there. #2 and #3 and Danehy do need a little grass job to get in better shape. #1 was redone a few years back, went bad, and is now in pretty decent condition. No more turf please. One's (plus one at Russell park) is enough! Too many hazards with turf surfaces. Actually, if they want to turn the turf back to grass, that's fine with us ! But the turf we can use throughout the winter, so, yes there's a little catch 22 there. No more turf though, please! Those who are planning for turf should play on grass and see that there is no comparison. Spend the money wisely. Spend it on grass. Thanks.
Barbara Thomas	Cambridge, MA	2013-02-04	I'd like the existing flora and fauna to remain balanced and intact.
Nina Gerassi	Cambridge, MA	2013-02-04	Cambridge has done a very good job of keeping green spaces, both important for the environment and for promoting a healthy outdoor life. It would be a shame to replace grass fields with turf. Eventually we will have to go outside of the city to enjoy nature.
Li Mo	Cambridge, MA	2013-02-04	I walk around Danehy Park every day, its a special green space for a city dweller!! The natural green grass is a plus for us city folks because it does not hold heat and its more ecological!! I pay a lot in property taxes here and I hope there's fund for the park.
John Tournas	Cambridge, MA	2013-02-04	I grew up playing on the grass fields of Danehy; I wouldn't want that pleasure diminished for anyone!
Philip Burnham	Cambridge, MA	2013-02-04	Natural is always better than unnatural. Think of how many resources will be consumed making the unnatural grass. Will it smell like grass? Will it feel like grass?
jason taylor	cambridge, MA	2013-02-04	I'm not a fan of plastic.
Leslie Lawrence	cambridge, MA	2013-02-04	We need more nature, not less. Grass smells good and teaches us how the natural world works.
Dorothy Scally	Cambridge, MA	2013-02-05	We need to preserve what little green space is left.
Jennifer Fuchel	Cambridge, MA	2013-02-05	Environmental Issues - plus natural grass is nicer
Madelaine Rosenberg	Cambridge, MA	2013-02-06	My children and I play on the grass in this park! We love it and don't want to play on artificial turf. We use this park year round.
Eve Goldberg	Dorchester, MA	2013-02-09	I play softball on these fields and cannot imagine playing on plastic turf
Aeron Hurley	Jamaica Plain, MA	2013-02-14	In a city that is losing its green space to buildings and concrete, it would be foolish to replace a grassy park with fake plastic turf.
Karen Greenleaf	Cambridge, MA	2013-02-18	AstroTurf is horrific to the environment!
