**Subject:** Save the Grass Playing Fields at Danehy Park!

Dear City Counsel and City Clerk,

I strongly oppose the plan to replace the grass playing fields at Danehy with artificial turf. I oppose this primarily for the gross environmental and health concerns associated with artificial turf. Why would we purposely cover our dear grass fields with plastic toxins that cause so much environmental harm? It simply makes no sense at all and is extremely short-sighted. I want my kids to be healthy!!!!
