Dear Safi,

I am shocked that the proposed new drive of the Cavallo's has been brought to this stage without us being kept informed by them. I did not agree to their request but asked for more information. Given that this has not been supplied, I strongly object to it being brought forward without consultation.

I cannot come to the meeting this evening because I only heard about it from Lodo today and we have an open house for prospective students at MIT. But please pass on my concerns about the availability of parking spaces on Channing (we will loose at least two) and that the Cavallo's already have parking on Channing Circle.

John Marshall  
17 Channing Street,  
Cambridge, MA
