Subject: Approve MIT Kendall Proposal

Dear Council,

I write to you today like any busy Cantabridgians, from law school in between jobs and on borrowed time. As a resident of Kendall and Area IV I explore you to approve MIT's proposed development of Kendall Square. Further I ask that you amend according to councilor Cheung's proposed addition of five stories to accommodate housing needed in this area. I also ask this council to recognize that the ability to show up and speak on a Monday night is simply not within the scope of the "silent" majority of citizens who approve of this development let alone the myriad of MIT heads that have written in support, the CSBA's support, the Chamber of Commerce's support, and support of this who served on the Central Square Advisory board. As a member of the C2 board I am happy to see many of our recommendations have made their way into the development of Kendall and as we push forward and develop this city for future generations I hope that we apply the same vigor and responsible growth policies that MIT has brought forward to the inevitable development of Central Square. Please approve the MIT proposal.

Warmest Regards,

Patrick W. Barrett III
