RE: MIT's petition to create a new Section 13.80 Planned Unit Development 5 (PUD-5) District

Dear Ordinance Committee Members:

You may remember that I wrote a letter on March 7, and also spoke at the ordinance meeting that night in support of MIT's petition to create a new Section 13.80 Planned Unit Development 5 (PUD-5) District in Kendall Square. I am writing again today to reiterate my support, in hopes that the council will vote in its favor this evening.

While I understand the concerns that have been raised, I truly believe that MIT's plans for the area will bring new life and energy to Kendall. I have already seen this to be the case with the changes in the past few years, and look forward to seeing continuing improvement to Kendall Square and the surrounding neighborhoods, including my own Area Four.

Thank you for your consideration.

Lara Gordon
