Subject: Cambridge lighting

Dear Sir/Madame-

I understand there is a meeting this evening to address the bright night lights along Wood Street in Cambridge. Unfortunately, I am not able to attend the meeting but do want to comment on how intrusive the current lighting situation is. The situation seems to have gotten worse in the last few years as the development behind me has installed their lights and the large brick apartment complex in front of me has installed brighter flood lights. Bright streaming lights fill my first floor home from both the front and the back. I have installed double curtains in my bedroom so that I can get a good nights sleep but then and not able to enjoy the natural light of morning sun to help me rise. The rest of my apartment is flooded with a harsh, intrusive light, that that is aimed directly into my living room. These lights create a harsh and inhuman element into my home.

I would greatly appreciate any solution to this problem.

Sincerely,
Anna Stothart

25 Wood Street
Cambridge, Ma 02140
