Subject: PASS Teague Petition "as written"

Dear City Councillors:

Please enter this communication in the Council record. I'm away from Cambridge and can't attend tonight's meeting.

All of us who support this petition are responding to a public health hazard that has emerged since 1961, when the zoning ordinance last dealt with light pollution. The petition is a long-overdue, enforceable update. It is reasonable. It is necessary for protection of our public health.

I urge you to pass it, tonight.

Yours sincerely,

Marilyn Wellons
