Subject: I SUPPORT Net Zero Petition

Hi City Councilors,

I have been a Cambridge resident for 15 years. Today I was made aware of the NetZero Petition and I want to state that I fully support this measure and would like this email entered in the Council record.

Cambridge is a world-class city and we should lead by example in the fight against climate change. This is one important thing we can do, especially given all the new large buildings that are being built in our city.

I truly hope that the Council will act on this petition before it expires on November 18.

Sincerely,

Nancy Gold
938 Massachusetts Ave.
