**Subject:** Leadership on Adapting to Climate Change

Who will be the "adaptation champion" of the effort to prepare our city for climate change? Please read this very insightful report.  
<http://ccap.org/assets/Ask-the-Climate-Question-Adapting-to-Climate-Change-Impacts-in-Urban-Regions.pdf>

At this point, it seems to me, as just a layperson, that Mike Connolly is the person asking the tough questions and doing the leading on adaptation.

Will someone in our city government grab the baton when Mike hands it off?
