Subject: Cleanliness in Central Square

To the Honorable, The City Council:

After speaking with residents and to City offices for years about quality of life and cleanliness issues in Central Square, I was pleased that on September 30th, the Cambridge City Council approved a policy order requesting that the City devote more resources to the cleanliness of Central Square.

I am asking the Council to reject City Manager and Commissioner O'Riordan's response to their order. Stating that "we already do a lot" in Central Square has been the same line I have heard for years. If anybody walks around Central knows that whatever is being done is not enough and I applaud the Council for supporting their residents' in their rights to having a clean and safe neighborhood to live.

Central Square is home to thousands of individuals, families, and business that deserve the same high quality of life as the rest of the City's residents.

Thank you,

Rachel Gunther
