Subject: support for tonights' hearing Agenda #14 regarding need for an updated Master Plan for Development in Cambridge

Dear Dona, Ms. Simmons, Denniz, and Nazeem;
First thank you for initiating this extremely important process.

Second, please consider my vivid support for an updated Master Plan prior to any further development in Cambridge. In my opinion, this Master Plan should include pedestrian, automobile, and bicycle traffic issues, as well as a very limited and extremely outdated public transportation system, and it should be designed to evolve continuously so as to facilitate future changes adapting to new lifestyles and technologies.

I would additionally support a moratorium on development as previously proposed by certain residents, in particular regarding all residential development in the Alewife area, and specifically 75 New St..

I regret not to be able to attend tonight's meeting and I thank all those who work hard to make our City a better place to live.

Sincerely;
Nicolaï Cauchy
