Subject: Yes To Master Plan

I strongly encourage the city council to endorse the measure introduced by Councillors Carlone, Mazen, and Simmons, for the Council to take pro- active leadership in the development of a Master Plan, in collaboration with neighborhoods and concerned citizens, and a process that integrates efforts to address the need for affordable housing, improvements in the traffic and transportation infrastructure , and measures that ensure that responsible growth follows a healthy and sustainable path.

Sincerely,
Paula A. Paris
