Dear Mayor Maher and fellow councilors:

I can support whatever process you set up to examine the need for a Master Plan, I can see building on the work of K2C2, but definitely not putting the CDD in charge of any resulting process. They could be immensely useful in an honest, unbiased process under the council's supervision. Unfortunately, as has been said numerous times, the CDD sacrificed their reputation on the altar of over-development.

Thank you,

*Paul Steven Stone*
