Subject: New Street study

Dear Ms. Lopez,

Re: Policy Order #6, June 2, 2014 Council Meeting

As a resident of North Cambridge, I believe that serious improvements are needed for New Street to meet its current and planned uses. Specifically, there need to be sidewalks the length of the street, curb cuts should be rationalized, and there should be specific lanes for bicycles. Although New Street ends at the Fresh Pond Mall's parking lot, which is private, the City should encourage the mall owner to create a specific roadway enabling drivers and cyclists to get to the street that connects the two sides of the parkway.
