Subject: support for Policy Orders #10 & #6 and the Carlone Petition on Special Permits

I write in support of Policy Orders #10 and #6 on the Council's agenda for June 30. I also support the Carlone Zoning Amendment on special permits.

The Fresh Pond Residents Alliance has been pressing for improvements to protect the safety of pedestrians and cyclists traveling through in Fresh Pond Mall parking lot en route to Danehy Park and the Alewife T. Such improvements are long overdue and would also make driving through the lot safer. We thank Councilors McGovern and Carlone for bringing this forward in response to widespread concern from residents.

The FPRA also supports preserving the affordability of expiring use properties in our neighborhood like the Briston Arms. We thank Councilors McGovern and Simmons for championing this issue.

I would attend the meeting to speak in support of these matters, but I will be out of town on Monday.
