Subject: The Carlone Petition

To the Honorable City Council

I would like to add to my sponsorship of the Carlone petition before you ( Petition #5 the Carlone Petition), my most sincere plea that you support this petition in order to make real the opportunities that you have provided through the creation of a new City master plan process.

Without the City Council's assurance , through its review and control of special permits, that no significant land development activities will move forward until we have a clearer vision and direction for the city , the voters and the residents of the city will find it difficult to participate fully in the planning enterprise that you have set in motion. You will, if you do not support this petition, dash the hopes and expectations that we all have for a better city .

I sincerely hope you will support this petition.

O. Robert Simha
