Subject: Petition #5 Carlone petition regarding special permits

Dear Councilors,

I strongly encourage you to support Councilor Carlone's petition regarding special permits. I appreciate the effort and expertise of the Planning Board. However many Planning Board members are architects and urban planners, and even in situations where there is no specific conflict of interest, someone whose day job depends on development is more likely to take a pro-development stance, which may not always be in the best interest of the community at large.

Sincerely,

Alec Wysoker
12 Suffolk St
