To Whom It May Concern,

I am writing about the East Cambridge Parking Garage and the redevelopment of the old courthouse on Thorndike Street. It is my understanding that the redevelopers would like 400 parking spots.

I park there every weekday. My work schedule requires me to arrive in Cambridge at 11AM. At least three out of the five days I am on the roof. I do not see how the developers can be given 400 spots. Where are the cars being displaced going to park?

Thank you for your time.

Sincerely,

John M. Braithwaite
