Subject: Fwd: Application & Petitions Agenda Item #1: 149 Sherman Street curb cut

Dear Ms. Lopez and Members of the City Council:

We were surprised to learn that a curb cut application from 149 Sherman LLC for a proposed development at 149 Sherman Street in North Cambridge was placed on tonight's agenda for consideration and possible action by the City Council.

Discussions with the City Clerk's staff this afternoon and a document in the application materials submitted for the council's review indicate that the standard notice to the neighborhood association seeking input about the petition was mistakenly sent to a group in Neighborhood Nine, rather than the appropriate organization, the North Cambridge Stabilization Committee.

We therefore respectfully request that you table this matter so that our group has a reasonable opportunity to review the application, notify concerned neighbors, invite the proponent to present the plans at a neighborhood forum, and then share input with the council in accordance with the promulgated curb permit process.

Thank you very much for your consideration.

Sincerely,

Michael Brandon
