Subject: Acceleration of paving of Fresh Pond bike path and purchase of New Street spur

To Whom It May Concern:

Our family of five has for years dreamed of these former rail lines being turned into bike paths/green ways. It will connect so many of our favorite open spaces, which we use for walking, running, biking, sports practice and enjoying nature. We can think of no other single act besides accelerating the paving of the planned greenway and purchasing the New St spur that would add so immeasurably to the quality of life for our family and others in the neighborhood.

Sincerely,

Anastacia and Jorge Salcedo
196 Appleton St.
