Subject: Oppose Normandy Tower up-zoning

Clerk Lopez, Please enter into City Council record.

Ms Paden, Please forward to the Planning Board.

Dear Councillors,

I am very upset about your impending approval of the giant Normandy 19 story tower to be built in Central Square. It is totally out of scale with any other structure in Central Square. You are rushing approval before the conclusion of the major area planning that is in process. It is not even in keeping with current zoning for the area. The developer's reputation in New York City is very poor. I believe that you are supposed to act in the best interest of all the citizens. This project, as I see it, will benefit a few individual and will be detrimental to the community and sets a poor precedent for the respect of our zoning process.
