Subject: Strong funding for Net Zero, City Council 6/1/2015
Date: Monday, June 01, 2015 2:31:29 PM

Dear City Councillors,

I am writing to urge you to allocate strong funding to implement the Net Zero Action Plan. With your leadership we can continue to move towards a future where Cambridge has net zero carbon emissions. The need to move away from fossil fuels is urgent but also possible. My hope is that the goals that have been set in the plan will be reached sooner than anticipated.

Thank you for all you're doing so that our children and all the world's children might have a future civilization worth living in.

Sincerely,

Ginger Ryan
