I'm writing today as a resident of West Somerville (corner of Willow Ave and Summer Street). In the past weeks, we have experienced far heavier airplane traffic and noise over our neighborhood – at times, low-flying planes were just 90 seconds apart from each other. We have only been living in our current condo for 18 months and never would have purchased a home in the area if we had known that we would be living under a flight path and need to contend with such disruptive noise.

I hope that recent flight traffic and patterns will be re-considered to alleviate this issue.

Sincerely,

Kate
