In volume three, he describes an incident where he was burned by a microwave weapon. Can he elaborate?

He explained how the pencil weapon can be used by the Tall Whites to cause great pain, death or sleep. He described an incident where a CIA guard tried to help a Tall White female in getting up the stairs at the Congressional building, but the guard inadvertently hurt the Tall White and she threatened the CIA guard, who had to beg for his life.

He explained that the pencil weapon can be used to stimulate calcium atomic frequencies to cause great pain like being burned, but one was not actually burned.

When the iodine setting is used by the stun gun, it can cause one to bleed to death. He compared this to the black plague when people would bleed to death due to arteries being weakened and blood leaking out, causing death.

In an email, Charles clarified how the pencil weapon works. "The pencil weapon could be set to stimulate the atomic frequencies of sodium, calcium or iodine. Stimulating the sodium atoms caused immense pain because it caused the nerves to discharge. If the weapon is set high enough, it can cause instant death. Stimulating the calcium atoms caused the reverse (i.e., sleep, calmness, relaxation, etc.) because it causes the nerves to reset and relax. Stimulating the iodine atoms, of course, as described in book three,

caused death by internal bleeding because it causes chemical changes that allow the blood to pass through the walls of the arteries in and around the thyroid gland."

He said that Tall Whites' tempers can change very quickly from friendly to hostile.

The pencil weapon was used against Charles in a misunderstanding that is described in his book, but the iodine setting was used which caused internal bleeding.

He recalled seeing a friendly Tall White female approach him when he was lying hurt and she did a kind of graceful dance around him.

- 5) 12/2 6:30 A.M. Pottsville, AR. 10 minutes. Triangular craft with lights, quiet and slow, drifting. It was just hanging in the night sky, dull in color, as if it wasn't fully illuminated yet. About 1,500 feet up, it then slowly went north. It became fully illuminated then it banked west.
- 6) 12/2 4:30 P.M. Bowling Green, KY. 20 minutes. Diamond-shaped objects were quite distinct and quite bright. The two diamond objects did not seem to be moving at all, but the line object was moving very slowly to the right.

One object that flew over witness appeared to be triangular, with three red areas that looked like the tips of a triangle. The outer points were the brightest, fading into black at the center. It resembled a piece of metal when a torch is held on one side until it gets red hot, fading into the opposite, cooler edge.

Underground Bases and Way Stations

In Robertson County (Texas) UFOs have become a nightly occurrence. Other factors which occur in the same location:

1. Unexplained tracks on the ground.
2. Mysterious deaths and disappearances of livestock.
3. Interference with normal radio reception.
4. Strange code being received on CB radio frequencies.
5. Power blackouts.

The caverns beneath Calvert, Texas are being used for some type of operations. Farmers and ranchers in the area have reported hearing peculiar noises coming from deep beneath their feet.

"Individuals living 5 or 6 miles outside Calvert have been repeatedly driven out of their homes by the sound of generators".

In April 1973, students camping in the San Gabriel Mountains on the western edge of the Mohave desert "felt uneasy" and then saw a giant man-like creature. Researchers from the UFO Research Institute were called in. They discovered the sound of geared machinery and what might be compared to a hydroelectric plant coming from 'beneath the forest floor'. Sounds of operating machinery have been recorded coming from mines in the area after midnight.

The Yakima Indian Reservation

Southeast of Tacoma, Washington is the Yakima Indian Reservation. Of special interest is one particular section 40 miles wide and 70 miles long, bordered on the west by the Cascade Mountain Range. It is an area of canyons and heavily forested regions. The valley is essentially closed to the public and special permits are required to enter. Forestry personnel have heard (Dorthea Sturm) unusual sounds for years coming from underground. One area of intense activity is known as Toppenish Ridge. From deep within the dark, restricted canyons, "glows" have been seen. This area is not accessible by foot or vehicle. Low-flying silver cigar-shaped craft have been seen to disappear into the deep canyon known as the Middle Fork of Toppenish Creek.

Physiotype of Grey-Reptilian Alien Responsible for Abductions

(c) Chan Johnson 1988

The entity pictured above appears to be a cross breed between the Grey species and the Reptilian species. Note the mandible-like formation around the mouth and the ridges over the eyes and along the skull. Also note the 4 webbed fingers as opposed to 3 in the less complex species.

Additional Information about the Greys and Reptilian Species
and their General Activities with Human Beings on Earth

The general class of beings known as the Greys make up several species. All the species seem to have rigidly defined social classes, which tends to be a hallmark of electronic space societies. In general, there are three kinds of Greys: The Reticulans, who are about 4.5 feet tall, those from Belletrax (also in the Orion system) that are about 3.5 feet tall, and another species of Orion Grey that ranges in height from 6 to 9 feet tall.

In general, the Greys that have operated on Earth for a long time are subservient to a large Reptilian species. Because of their subservience to the Reptilian species, it is possible that they would, in principle, desire the aid of humans in any future confrontation with their Reptilian masters. This could be the main reason behind the training that is given to abductees. The planetoid that is entering our solar system at this time (it will be here in the coming years) has been written up in several major newspapers, and it has been determined that it is being intelligently guided and that it emanates a large variety of frequencies within the electromagnetic spectrum (which indicates that it is occupied and has a technical culture).

The Zeta Reticulans appear to be divided into two social classes, one being more "hawkish" than the other. The more peaceful of the two appears more refined and has demonstrated a more tolerant attitude toward humans. The other class is more abrupt, blunt and crude toward humans.

Through analysis of many cases, it would appear that the tall Greys have one base near the Aleutian Islands. The taller Greys seem to have overall influence over the Reticulans and also over the Belletrax species. The influence over humans seems to center around implantation of human political figures and those in control of planetary power groups.

The Zetas have apparently reproduced themselves for thousands of years by the cloning method. They have devolved from the sexual reproduction process so that all sexual organs (as well as their digestive tract) have totally atrophied. They have no stomach and digest their "food" by absorption through the skin or under the tongue. The mouth cavity is approximately two to three inches in depth.

These are the entities that are involved (the government is also involved) in cattle mutilations. They absorb specific substances from the cattle products that seem to lend stability during the cloning process. These substances originate in certain glands and mucus membranes (lips, nose, genitals, and rectum). The problem that these entities have come to experience is that in the re-cloning process each copy is genetically weaker than the last. This has stimulated their interest in the creation of a hybrid through genetic

b

engineering with human genes, trying to merge and blend the species in order to preserve their race. It is for this reason that the Zetas abduct humans (other species have similar reasons for abducting humans). Many of the abductions have an outwardly "cruel" nature to them, insofar as the nature of the examinations and genetic work is quite psychologically disturbing to humans. For example, a caged vacuum tube is often inserted up the human rectum and around into the intestines in order to withdraw samples of fecal material for analysis, apparently to examine the types of food eaten as well as the results of the digestive process relative to alien influence on the physical body.

The Blue Ray

Several types of beams are used by the aliens. One in particular, the blue colored ray, is used for paralyzing, capturing, and transporting humans. The action of being beamed into a ship temporarily suffocates the human, as all the oxygen is suddenly removed from all the cells of the body during the process. Another type of radiation restores the oxygen to the body upon arrival. When the aliens themselves use beam transport, a different type of beam is used that permits them to arrive completely alert. The blue beam is described quite frequently by abductees.

Nutrition

You will recall that "mutilations" generally result in all of the blood being withdrawn from the body. This has been the case whether the subject is an "animal" or a human. The blood and other fluids are then generally transferred to holding containers, or vats, as well as other body parts. There are many many reports of humans in various situations and scenarios having come in contact with aliens, or have been in caves or caverns with aliens, and having seen canisters or vats in which animal parts were floating, and in which a purple-red fluid was present as a substance in which to suspend all the materials.

There was one case where a woman and her two children were abducted by the entities from Belletrax (the entities referred to as "SM's" in the Case For the UFO) and she would not cooperate with them when they had her on board their ship. Their reply to this lack of cooperation was very direct - they killed both of her children. She managed to run down a hallway and went into a room where she saw a vat full of red liquid and body parts of humans and animals. She saw another vat of the same type in which the liquid was being agitated, and as she looked into the vat she could see Greys bobbing up and down, almost swimming, absorbing the nutrients through their skin. There is also the use of H₂O₂ in the vats in order to aid in preserving the fluid from rapid

degeneration. These entities have been abducting humans for many centuries - these entities view Earth as a big farm, and have been essentially raising and harvesting humans and apparently abduct humans to take them back to their home planet to raise there in a kind of human husbandry scenario.

Child Sacrifice in the Christian Bible

If you study ancient history, you will find that it was common, especially in the time of Bael, for humans to sacrifice their children to their "gods". The process still takes place, especially in some Satanic rituals, today. The reason why these practices occurred is that the children were being given to alien races. The ancient "gods" of the Old Testament were beings of a radically different nature than the human species. These were the same entities that destroyed the cities of Sodom and Gomorrah, because they did not like their own people mingling with humans and decided that humans were too much of a nuisance. The stories given in the Old Testament relate to other

archaeological studies found in other cultures. Babylonian, Akkadian, Summerian, Ur and Egyptian cultures all carry stories that add to and clarify the stories in the Old Testament. These stories, as pointed out later on in this book, indicate that the entities who were portrayed as "gods" were in fact space aliens. Usually these "gods" asked for sacrifices of a human nature. Here we are referring back to the period over 12,000 years ago, but the practice has been continued.

There are indications that the ritual of the Eucharist (eating bread to symbolize the body) is a reflection of earlier rituals where aliens were eating off the bodies of humans or feeding off their energies. The phases "Food of the Gods" takes on new meaning when these factors are understood. The true "Nectar of the Gods" which the aliens involved seem to prize most is a substance that is taken from freshly killed humans. This substance is generated at the moment of death by the strong surge of adrenaline. This surge of adrenaline through the body accumulates at the base of the brain (the brain stem) and some aliens thrive on this substance as though it were some kind of ultimate drug for their particular species. This substance is most potent in human children.

Past Influences of the Reptilians

The Reptilian species that are soon coming back to Earth are the same entities who affected much of Earth's history in the past. It was the Reptilian types that were represented in the Garden of Eden story as the serpent. The entities that originally participated in the creation of the Homo Sapiens species placed the entities (humans) that they had genetically engineered in their own image in the area of what is presently Lebanon and Syria after their "expulsion" from the "Garden of Eden", which some research seems to indicate was a laboratory complex on Mars run by a group of entities known as the Jehovah, who seemed to be regarded by the Pleiadian humans as space renegades. The process of development of the Homo Sapiens species was interfered with at a later time (see the overthrow of Ea on page 374A).

Other types of Reptilian Species

In the Draco system there are other types of entities which have visited the Earth in the past. These entities were described by John Keel in his book *The Mothman Prophecies*, released in the 1970's. The Draco are about 8 feet tall and have winged appendages coming out of their shoulders, dark scaly skin, and have glowing red eyes. They have the ability to fly and usually operate at night. These entities, as well as the elite of the other Reptilian species (that also have winged appendages) were the source for some of the legends of the past relating to gargoyles and Valkyries. It is also apparent that some of the qualities ascribed to vampires have also been taken from these creatures.

Reptilian Alien--the Masters of the Grey
(c)1989 Jon Strongbow

This group is primarily in dominance over the Greys. The elite of this group have winged appendages on their backs, but are rarely seen. The "mothman" researched by John Keel may be an example. The symbol at the top is similar to the basic trilateral symbol, but is more detailed and has a winged reptile in the center. Many Grey splinter groups have become independent of reptoid control. The Draco are included in the reptilian grouping.

The Sirians

A lot about the Sirians has been detailed in a book called Cosmic Trigger, by Robert Anton Wilson. There are also other sources of data. The picture below is essentially correct, including the eyes and the symbol, but the face needs to be depicted as being a little wider. The symbol is essentially right. Underneath the body suit you will find the short blondish hair.

Entities from Alcyone System

These entities were encountered by a woman in California in the 1980's. Their skin was dark green in color. They wore a pad on their arm that they used to wipe excretia from a hole in the back of their neck. These entities function mostly in 4th and 5th densities, which includes the densities humans refer to as "astral". The woman was told that she was abducted and implanted because they thought she was an "opinion leader". The beings would develop a pulsing glow around their heads when they became excited. The entities function according to Service to Self and utilize implantation as a manipulative factor.
