

## **Making a difference in Cambridge**

As a City of Cambridge employee, you know how important it is to help residents and visitors gain access to the services they need. You do this every day.

At Cambridge Health Alliance, our mission is to improve the health of the community. There are thousands of men, women, and children who rely on us for health care. Patients come to us, when they are sick and also to stay healthy. They trust us to get medical care from providers who understand their language, culture, and unique health needs.

CHA is a safety net system that strives to improve the health of our community. Our patients come from all over the community and we take pride in caring for some of our most vulnerable neighbors. This year, please help our patients by donating to the CHA Foundation. Your gift will help support Cambridge Health Alliance as it provides health care to individuals and their families when they need it the most.

## **About Cambridge Health Alliance:**
