Thanks for the heads-up, Councilor Kelley. The petitioner is out of the country until January 12 but has agreed to narrow the requested curb opening and modify the proposed driveway and parking plan in consultation with the most concerned abutters upon her return home later this month, pursuant to the discussion at NCSC's December neighborhood forum, at which she presented her plan.

Please remove this agenda item (no. 2) from Monday's Applications and Petitions list, briefly explain the circumstances, and move the item to the table for consideration later this month. (The parties are expected to meet and review a revised plan over the weekend of January 16.)

I am copying by email the applicant, the involved abutters, the City Clerk, and Mayor Maher and other City Councilors, any of whom may contact me if there are questions about this request or if more details would be helpful.

Appreciatively,

*Michael*

Michael Brandon, Clerk  
North Cambridge Stabilization Committee
