Subject: 100 % renewable energy for Cambridge

Dear City Council,

We strongly support the policy order submitted by Councillor Carlone, requesting that Cambridge allow the energy contract with TransCanada to expire, and for the City of Cambridge to switch to 100% renewable energy. This change would not only be a step towards preserving a livable planet, but, as Cambridge is an influential city, we can inspire other cities to make the same commitment to renewable energy.

Sincerely,

Amy Meltzer & Philip McArthur
