Subject: Policy Order #18

Dear City Councillors,

I am writing to ask you to support Policy Order #18. Dennis Carlone is asking the City Manager not to renew the contract with TransCanada for electricity for municipal buildings and to switch to a supplier that offers 100% renewable electricity.

One excellent example is Palo Alto with the Carbon Neutral Electric Plan.

http://www.cityofpaloalto.org/gov/depts/utl/residents/resources/pcm/carbon_neutral_portfolio.asp
for further information.

I am a member of Mothers Out Front - Mobilizing for a Livable Climate. (MothersOutFront.org) Our goal is to ensure that our children and grandchildren will have a safe place to live. We are calling for a transition to renewable electricity, with no new infrastructure for energy from fossil fuels. We have made the switch in our homes for renewable electricity.

At this time, I would also ask you to make the commitment in a personal way to renewable electricity by making the switch for your home electricity. You do not need to put solar panels on your roof. All you need is your phone or the internet - here's the link.

Thank you very much for supporting Policy Order #18.

Sincerely,

Rachel Wyon
