Subject: Support for Policy Order #18

Dear City Councillors,

John Broder of The New York Times wrote: "The changing global climate will pose profound strategic challenges to the United States in coming decades, raising the prospect of military intervention to deal with the effects of violent storms, drought, mass migration and pandemics, military and intelligence analysts say."

That said, we are **URGING** you to support Policy Order #18.

Under no circumstances should our city renew the contract with TransCanada for electricity for municipal buildings but should instead pursue a contract with a supplier that offers 100% renewable electricity.

It's time to act bold and offer a beacon of hope for our community/world.

Thank you for your consideration.
