To: City Council; Lopez, Donna
Subject: Policy Order #17

To the City Council and Clerk:

Corporate control of our elections is at the root of failures by Congress to enact important legislation that would, among other purposes, protect the environment, protect the existence of the middle class, and improve education.

Corporations are expanding their control to judgeship elections, and to local government council elections.

I support the adoption of Policy Order #17 in order to protect democracy for the next generation. We don't want to be ruled by an elite made up of people like the Koch brothers.
