Clerk Lopez, please enter into the council record

Ms. Paden, please forward to planning board

I write to express opposition to the spot-zoning that allows the Normandy Twining project to move forward. It is an out-of-scale project where developers make huge profits but the city reaps very little reward in terms of affordable housing. How is it developers have so much power and clout, and Cambridge residents have so little!! The planning process is completely broken. Time to fix it.
