Letter of Support: Mass + Main Mixed Income Housing Project

Good evening,

My name is Amanda Tramont and I live at 3 Dana Street.

Tonight, I'm here to speak on behalf of the Mass + Main mixed income housing project and urge the city councilors one last time to approve this project.

I've spoken at several meetings and my point has always been the same - we simply do not need any more office or lab space in Central Square.

What we really need is more affordable housing. It's easy for someone with a house and warm bed to sleep in at night to say that we need to take more time to study this project further or that it is too high.

Why are we using these delay tactics when there are 47 permanently affordable units ready to go now for people that desperately need them?

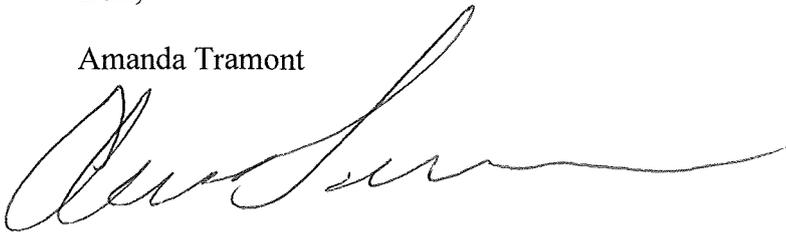

I don't think there is much more that I can say in a support of this project. Please vote in favor of the Mass + Main mixed income housing project.

It will be good for our city and good for Central Square.

Thank you.

Best,

Amanda Tramont
