Subject: Bike lanes and infrastructure

Dear City Councilors and Clerk,

I apologize that I could not make the meeting this afternoon. I would like to add my very strong support for protected, separated bike lanes as described in the Cambridge Bicycle Plan. I am particularly excited to see these protected lanes implemented along the dangerous Mass Ave Corridor, and on Cambridge and Hampshire Streets.

While we have made so much progress for biking infrastructure in the city, biking is still incredibly dangerous and stressful in Cambridge. We have the funds to implement these changes, and they will surely prevent accidents, reduce vehicular traffic, and improve commuting for everyone (cars and pedestrians included.)

-Chris
