SUNSHINE OF THE AMERICAS
793 CAMBRIDGE STREET
CAMBRIDGE, MA 02141
www.Treaty.Tv (617) 876-4144

July 5, 2012

To The Honorable City Council of the City of Cambridge, Massachusetts

I am writing to you regarding Reverend Danny De Gug, President of the human rights organization, Sunshine of the Americas.

It gives me special honor to let you know that we are successfully amending our law case against the State of Massachusetts's venal, repellent, heinous and genocidal state seal and flag. Because of its utter humiliation of the Mothers and Fathers of our Americas, our Native American Indians, our Root People respectfully.

Note once again the evil and diabolical arm and sword of the murderer Myles Standish in his white supremacy fencing position ready to continue genocide if necessary. We, the people of Sunshine of the Americas Foundation once again, invite the city leadership, all union teachers, all city workers and the entire citizenry of Cambridge to overthrow, to condemn and banish from it's borders, the state flags of Massachusetts.

2012 JUL 5 PM 3 59
OFFICE OF THE CITY CLERK
CAMBRIDGE, MASSACHUSETTS

Compare it with the work of Art that clearly points to the racism it implies if

it were the other way around.

FIGURE 13

Next: Level Three Labs

Furthermore, we bring to your attention the cleverly concealed and darkened images of Level III Labs in our fair city of Cambridge.

Reverend Danny has confided in me, James P. Coughlin a trustworthy position called an "Foundation Reporter." He, Reverend Danny De Gug also wants city councilors to act in heroic terms by communicating the truth about the evil of the Massachusetts state seal, flag and Level III Labs.

As the record will indicate, The City of Cambridge has permitted through the various levels of governmental review the existence of Level III research labs within the city. According to a Leadership of Public Health there are Level III labs in our city that are located within residential neighborhoods where if an accident were to happen it would be absolutely horrific.

Sam Lipson is that Leadership of Public Health:
Director of Environmental Health
Cambridge Biosafety Committee
Cambridge Public Health Department

119 Windsor Street, Lower Level
Cambridge, MA 02139
(617) 665-3838
slipson@challiance.org

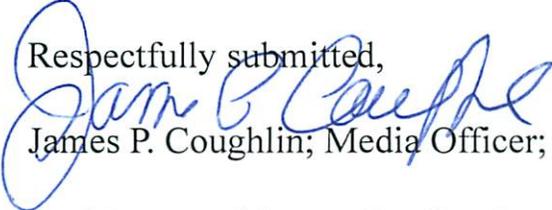

The names and locations of those labs are at the following addresses:

- Novartis Vaccines and Diagnostics, 45 Sidney Street
- Sanofi Pasteur, 38 Sidney Street (vaccine development)
- The Broad Institute, 7 Cambridge Center (TB research)
- Idenix, 60 Hampshire St

And what about the idea of Harvard U. having ever at its disposal a cleverly concealed Level Three Lab. Stop playing patty cake with Harvard and start playing Honesty with our Children!!!

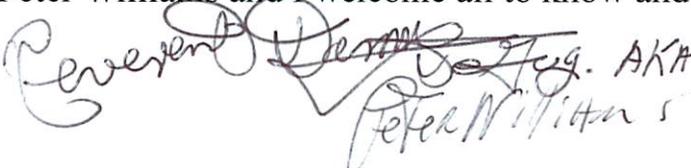

Now Therefore Be It Resolved that the city council meeting in assembly hereby requests the city council's subcommittee on Public Safety to hold an emergency public hearing with the aim towards having these dangerous facilities removed from within the confines of the City of Cambridge as soon as humanly possible.

Respectfully submitted,

James P. Coughlin; Media Officer; Sunshine of the Americas Foundation

And Reverend Danny De Gug President of the Sunshine of the Americas Foundation; Also the President of the Seminary where all Peoples can be ordained at the Word of Honor Cyber Temple. [www.Word of Honor.Org](http://www.WordofHonor.Org)

I respectfully urge all City Leaderships that are spiritual minded leaderships to take a courageous step forward and become ordained to light the way for all our Children to see the peace and love in Spiritual Ministry as Interfaith Ministers; always you keep your Root identity as an Interfaith Minister. My Pseudonym is Peter Williams and I welcome all to know and love the Truth.

Reverend Danny De Gug. AKA
Peter Williams
