TEEN HEALTH SURVEY
2006

Directions

Teachers: Please read these directions out loud to your students

All CRLS students are taking this survey. It asks you about what you do that affects your health. Your answers will help us understand your health and help us improve programs for you. This is not a test. There are no right or wrong answers.

DO NOT PUT YOUR NAME ON THIS BOOKLET. The answers you give will be kept private. No one will know what you write unless you choose to tell them. Your name will never be used. Taking this survey is up to you. If you do not want to answer a question, just leave it blank. Please sit with as much space as possible between seats. This will allow privacy for answering the questions.

When you have completed the survey, close and seal it with the sticker provided. Put it in the large envelope on the teacher’s desk.

You will probably not have done all of the things asked about in this survey. Answer what you really do. Please be as honest as you can. If you don’t know the answer to a question, be sure to check the box that says, “not sure”. If the question is confusing, you can ask the teacher for help or you can skip the question.

Some questions ask you about things you did or things that happened to you during the last 30 days. This means that you need to think back to March, up to today. Be sure to remember both school days and weekends. Other questions ask you about things during the last 12 months. This means that you need to think back to last April, through the summer, and up to today.

After filling out this survey, if you have any questions or concerns, please talk about them with your school nurse, school counselor, teacher or parent.

Thank you very much for answering this survey!
