### Zoning Petition Summary

	NON-RESIDENTIAL GFA (SF)	RESIDENTIAL GFA (SF)	TOTAL GFA (SF)
CRDD As Currently Constituted			
Original Entitled Use Allocations (GFA)	1,900,000	400,000 400	2,300,000
Use Allocations As Constructed	1,573,284	720,891 674	2,294,175
Allocations Transferred or Unused	326,716	(320,891) 274	5,825
Proposed CRDD As Amended			
Total Maximum GFA Permitted by Use	1,820,000	840,000 803 a	2,660,000
GFA Available for Development (d-b)	246,716	119,109	365,825
Site-Specific Analysis	300 Mass Ave	Sidney-Green	Combined
GFA Permitted under Current Zoning	138,848	5,825	144,673
GFA Permitted under Amended Zoning	246,716 b	119,109 129 a	365,825
Net Increase in Permitted GFA	107,868 b	113,284	221,152

(a) Approximate number of units after construction of proposed Residential Building at Sidney-Green site.  
 (b) Assumes full allocation of Non-Residential capacity — would be reduced by first floor retail provided in Residential Building.

**Presentation of Jonathan King before the Cambridge City Council Ordinance Committee**

**Tuesday May 15, 2012**

Members of The Cambridge City Council Ordinance Committee:

Good afternoon: My name is Jonathan King and I live at 40 Essex Street in Central Square. I serve on the steering committee for the Essex Street Neighbors, a community association representing more than 100 residents who are abutters to Central Square. I'm also an active member of the Area 4 Coalition.

I am here to offer comment on the document entitled "Forest City Zoning Petition dated 22 March 2012", dealing with areas adjoining the Lafayette Square neighborhood.

Our members walk to and through Jill Brown-Rhone Park, eat at restaurants and cafes there, take their toddlers and infants in strollers for walks there. This is partly because the traffic through Central Square itself is so dense that it doesn't serve as a family friendly open space. The Lafayette Square and Park has emerged as an open space fulfilling the promise to the local community made years earlier.

From everywhere in Jill Brown- Rhone Park and Lafayette Square the proposed Forest City residential tower will be a scar on the skyline. The proposed 165-foot building is completely out of scale with the neighborhood. It will cast shadows in the middle of day crossing the park and almost certainly generate wind tunnel winds, as do most of the similar isolated towers in Cambridge. The building undermines and compromises the Firehouse as the southern visual anchor of the Square. It will dwarf and trivialize the fire tower, one of the few elegant visual landmarks in the Lafayette Park area.

The office/lab building proposed for the New Asia Massa Ave block building is also far too high. It will put a whole block of Massachusetts Ave leading into Lafayette Square into full shadow during the day. It certainly should not be permitted to be taller than the NECCO/Novartis building further east. Forest City needs to be held accountable to the original rezoning agreements. If the Ratner family and Forest City want to build on the New Asia block they can reduce the scale of the new construction and increase housing on the site.

If granted, the Forest city petition will lower the quality of life for Cambridge residents, damage a critical open space resource, and irreversibly change the character of the Jill Rhone Park Lafayette Square area. Even the Goody, Clancy presentations to the Central Square Advisory Committee and the Kendall Square advisory repeatedly noted the importance of the relatively open and public space to the K2C2 planning area.

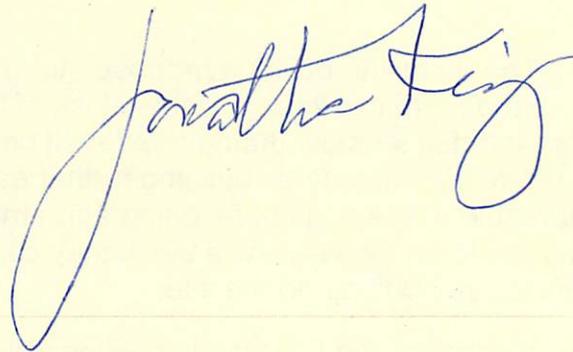

No effort was made by Forest City to get input from the active neighborhood associations in the area. Nor were they willing to wait for the K2C2 reports. The buildings are not being built to provide any amenities for the residents of Cambridge, but rather to get around the Planning Board objections to the original New Asia block petition.

The timing of the current petition appears to represent an effort to get around responsible zoning - perhaps Forest City was hoping that their petition would slip under the radar of the intense scrutiny being given to Central Square and Kendall Square planning.

Granting of this petition by the City Council to Forest City will insult and devalue the hundreds of Cambridge citizens who spent thousands of hours participating in the difficult prior years of planning and zoning efforts that have gone into the Forest City Developments down Sydney street. One of the very small victories gained was the little patch of open green space next the Firehouse, that now is to be filled in and dwarfed by a 14-16 story tower.

It is certainly likely that revenue generated from the project will enrich the Ratner Family, in Shaker Heights, Ohio, Forest City's principal owners and their partners; unfortunately the profit would come in part by lowering the quality of life for Cambridge residents. The efforts of the Ratner family members to influence Cambridge City Council member votes through substantial campaign contributions may be legal, but they should not be deemed acceptable within these decision making processes. Our City Council members should make clear that the very precious and limited land in our already dense city cannot be bought or built on primarily to profit outside developers.

This Forest City proposal should not be modified or amended; it should be rejected outright and in its entirety. Forest City should be held to the agreements they made to get the original up zoning they were awarded to build University Park. The proposal is completely without merit in terms of the Cambridge community, and represents an effort of an outside developer to exploit our land, streets, transit systems, and neighborhoods. The Ordinance committee should reject it unanimously.

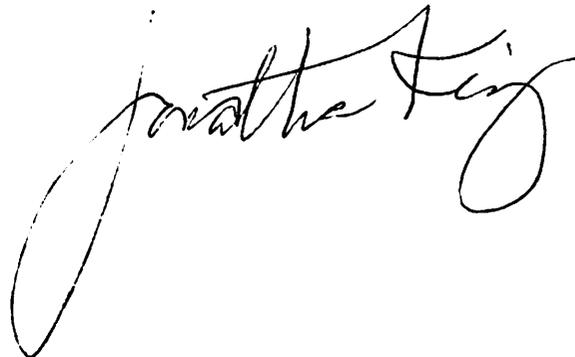

A handwritten signature in blue ink, appearing to read "Jonathan Feingold". The signature is fluid and cursive, with a large loop at the end of the last name.

**Memo**

**To:** Ordinance Committee of Cambridge City Council  
**Cc:** Donna Lopez, City Clerk (Please file with the Official Record.)  
**Fr:** Carol O'Hare, 172 Magazine St., Cambridge(port)  
**Date:** May 15, 2012  
**Re:** Hearing - Forest City/MITIMCo's Zoning Amendment Petition – Central Square High-Rises?

---

**Initial Notes:** I am not necessarily opposed to this proposal to redevelop the Blanche St. – Landsdowne St. site, which is a longtime eyesore and seriously underdeveloped.

I am a Johnny-Come-Lately to MITIMCo.'s sometimes tone-deaf approach to zoning change requests, which can skirt or create barriers to meaningful input during the zoning approval or rezoning process from affected constituents and interest groups?

**Tactics:** MITIMCo.'s approach to zoning may be modeled on the classic but frustrating and alienating tactic:

Seek zoning approvals or changes that are absurdly more extensive than you want and then appear to compromise by settling for what you actually want.

**Example from Recent History:** Last fall's premature and troubling MITIMCo. rezoning petition for 26 acres "in the vicinity of Kendall Square" when the Kendall Sq. study and planning process was under way and Central Sq. study and planning process was just beginning. This petition seems to have been essentially copied from a many years earlier Kendall area rezoning petition. That's apparently why it included absurd requests, e.g., bottling plants, drive-in movie theaters and exemptions from all signage restrictions, and such a minimal number of residential units.

**Question to Consider:** Why isn't it premature, if not offensive, for MITIMCo. to be petitioning for such radical rezoning as the Planning Board and your Committee are being asked to consider before Goody Clancy's and the Advisory Committees' work is even complete?

The Ordinance Committee of the Cambridge City Council  
Cambridge City Hall  
795 Massachusetts Ave.  
Cambridge, MA 02139

To the Honorable Members, Ordinance Committee of the Cambridge City Council:

I am a long-time resident of Cambridge and for the past seven years have lived in the Kennedy Biscuit Lofts Apartment Building on 129 Franklin Street. My apartment looks over Green Street. In the past five years, there have been three major construction projects on that block of Green Street: the Central Square Theater, the renovation of the current CCTV building and the demolition and construction of the Salvation Army shelter.

The ensuing noise has been terrible with construction workers regularly working before 7 a.m. on weekdays and all weekend. The dumpsters are emptied at 3:30 a.m. A nightclub in the back of the new Moksa restaurant opened about a month ago and can also be quite noisy.

I am asking that you deny Forest City's petition to change the zoning laws in that area of Cambridge and specifically to deny the request to build an apartment building in the current park on the corner of Sidney and Green Street. The noise of the construction would destroy the quality of life of the many residents in that area. The increased density in that tiny park would congest the area that is already a bottleneck many times during the day. It is VERY difficult to find on-street parking in that area and the expense of the garages are too high for most.

We residents of University Park enjoy that little park. There are often day-care groups that play there as well as office workers and others who enjoy their lunch in the park. When the Simplex Steering Committee came to an agreement with MIT over the development of University Park, green space was guaranteed. The community worked hard to hammer out that agreement and it is unjust to throw it out.

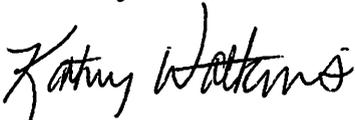

Two summers ago in a two-day rainstorm the first floor of my building and that entire block of Green Street flooded. The building was filled with several feet of sewage water and people were displaced from their apartments for weeks. We need the parkland that we have to absorb the rains. A large scale building there would be disastrous.

As a resident of University Park, Forest City is my landlord. By writing this letter, I am taking a risk of retaliation from their powerful lawyers, but this issue is too important to remain silent. The actual citizens, as opposed to businesses, who live in Central Square, do not want to live in a "destination." We value our quality of life and have NOT been represented in the commissions and studies that seek to turn Central Square into an extended campus of MIT. Most of the people I've spoken to have not even heard of these plans.

I have nowhere to move. High rents have already displaced me from other neighborhoods in Cambridge. My fellow tenants and I do not have the financial means of the Ratner family (Forest City) to donate millions to politicians.

Thank you for your consideration,

Sincerely,

A handwritten signature in black ink that reads "Kathy Watkins". The signature is written in a cursive, flowing style.

Kathy Watkins

May 14, 2012

Ordinance Committee  
City of Cambridge  
Cambridge MA 02138

Dear Committee,

We are writing to express our support for the Area 4 Coalition letter sent to you regarding the planned upzoning in Central and Kendall Squares. The Area 4 Coalition opposes any upzoning until a full report has been made by the Central Square Advisory Committee, and its contents vetted by residents, abutters, and stakeholders, especially by community groups like our own.

We share the concerns outlined to you:

**First**, the Advisory Committee's work should be allowed to conclude before any zoning changes are made. To do otherwise would render the whole exercise of having a committee study a problem and make recommendations pointless.

**Second**, Forest City's request to construct a 13 to 16 story building on the site adjacent to the firehouse and across the street from the Jill Rhone Park would not only remove an aesthetically pleasing gateway to the Forest City canyon of office buildings, but would dwarf the architecturally relevant firehouse and create an edifice that would tower over the public plaza of Lafayette Square (Jill Rhone Park), perhaps casting deleterious shadows and almost certainly detracting from the experience of spending time in this excellent addition to the revitalization of Central Square. Nor do we want to see zoning changed to permit a 165 ft. high Life Science Bldg. on the Mass Ave. – New Asia site at this time.

**Third**, any upzoning in the Kendall and Central Square areas must be viewed from a multiplicity of perspectives, including traffic and parking, infrastructure upgrades, encouraging a mix of residents' incomes and occupations, and quality of life issues, which will affect abutters, residents and other stakeholders. Area 4 residents want to take these factors into account before zoning is changed.

In short, there is little to be gained and much to be lost by a rush to judgment. Slow the process down and allow the committee to finish its business. Only then can the community make informed judgments, and express their concerns with the same information and knowledge possessed by the developers.

Thank you.

Sincerely,

Andrea Nash and Peter Berry
