**Subject:** Reject Forest City Zoning Petition

I cannot understand how you can allow Forest City to build such a huge building. It seems that when FC states the building is 95ft they somehow neglect to add the Mechanical Penthouse which brings the height to 128ft.

You all know that the height for Mass. Ave. and Main St. is between 60 to 80ft.

These overly tall buildings will ruin the Cambridge landscape. You are giving future developers the right to make this city into Manhattan.

How many of you are from here? From Cambridge? Do you really care about this city?
