**Subject:** REJECT Forest City Zoning Petition

Dear Councillors

You are an elite bunch and many of you have been around for years. You have, I have no doubt, seen Forest City sorts of issues many times before and, I have to think, you have come down on the side of the law and of the best interests of Cambridge's residents. In the belief that I am right, I have to think that the preposterous petition put forward by Forest City is a no-brainer. Enforce the law, Councillors, enforce the law.

Consider the welfare of your electorate and in particular that of the poorest among us. The author of the very good flyer that was handed out here in Cambridgeport made the case far better than I can and my hat is off to him/her.. Thus, if you reject it, I trust you will have solid reasons and that you will rebut each and every point with compelling arguments. Otherwise, please chuck this petition into what the English call the "dustbin of history". It is an outrage.

Yours sincerely,

Francis Higginson
