Subject: ACCEPT Forest City Petition - 300 Mass. Ave. lab

As a resident of Central Square, I'd like to voice my support for the Forest City Zoning Proposal for construction of a lab at 300 Mass Ave. The new proposal limits the height of the building to an acceptable level. Building the lab would bring in tax revenue, and the 1200 employees there would support restaurants and retail in Central Square. We should support local Cambridge businesses like Millennium Pharmaceuticals and allow them grow within a new space in Cambridge.

Thank you for your consideration.
