**Subject:** Voted No on the Forest City Petition PLEASE ! We the people deserve a more liveable community !

Dear Councillor's.

It is obvious to me that the environment, diversity both in race and economics of its people and livability does not matter to this City Council. When a developer presents the council with a meager proposal for future community benefits yet history has proven them dishonest, it is a shame.

Put the bus station in the All Asia block - clean up Central Square - own up to the massive debt this city is in for future generations ie) over \$300 million in debt, millions in legal bills and over \$600 million in other post employee benefits !!!

Vote NO and send a message that Cambridge is not for sale to the highest bidder or at least what little is left.
