**Subject:** Where is the Forest in Forest City? Green washing is NOT Acceptable to "smart" people - VOTE NO or resign for conflict of interest !

Government of Cambridge,

I believe there is grounds to sue the CDD, Councillor's and any public official who has eaten lunches bought by Forest City, made deals with local non profits on behalf of Forest City or even accept the name Forest City as there is NO FOREST in this city thanks to your lack of strength in standing up for the environment.

I call for you to resign if you are in conflict of interest.

PS Pizza at the Senior Citizen center in Central Square meeting I mean CHARETTE organized by the CDD counts.

**Subject:** \$1 BILLION in debt - I know you are desperate for money but please don't SALE Cambridge out !! Vote NO Monday August 6

Councillors et al,

Over \$1 Billion dollars in debt and \$81 million for a school I know you must feel pressured but you can stop the delusional thinking by voting NO on Monday to Forest City. There is not a forest in Forest City and you all know as well as I do the truth.

If you have taken money, gifts, contributions or food from Forest City or arranged for them to plant a garden in Central Square, you should recuse yourself from this vote, and resign from City Council.

Enough with green washing the fiscal shape of the city and the environment - vote NO. Good behavior and intellectual theory got us to this breaking point, action will lead us ahead.

Sincerely,

Margaret Myers
