

# Know Your Employee Benefits:

## Transportation Benefits

The central idea of this workshop is to help employees understand the transportation benefits offered to them by the City of Cambridge. This workshop sheds light on our commutes and hopes to decrease the stress we often have during rush hour. This workshop will help you to get to work without driving alone! *Please attend one of the next workshops.*

**Objectives:** At the end of the workshop, participants will be able to:

- Understand the sustainable transportation benefits offered
- Identify new ways to get to work without driving alone
- Search for benefits in the Employee Commute Manual

**Instructor(s):** Jennifer Lawrence, Sustainability Planner  
Cambridge Community Development Department

**Audience:** All City Employees are encouraged to register and attend a session
