

Lead Safe Work Practices Training Course

This training class will be presented at **no cost to attendees**. Those encouraged to participate include: home (or code) inspectors, contractors undertaking renovation, repainting, or remodeling work where lead-based paint may be encountered, maintenance workers, building supervisors and landlords, professional associations, state and local municipal agencies, community and social service organizations, and do-it-yourself homeowners.

The goal of this program is to teach attendees lead-safe work practices and the strategies for implementing them. Many homes built before 1978 contain lead-based paint, so it is important that renovation, remodeling and repair activities use methods that reduce and control dust and debris created during work. Even a small amount of dust can pose a serious health risk to children and families.

This Course has been approved by the American Board of Industrial Hygiene (ABIH) for 1.0 Certification Maintenance (CM) Points, (Approval No. 04-892); and is eligible for Board of Certified Safety Professionals (BCSP) Continuance of Certification (COC) Points.

Date:

Wednesday, April 6, 2005

Time:

8:15 am - 4:30 pm

Location:

Lead Safe Cambridge
344 Broadway
2nd Floor Conference Room
Cambridge, MA

Contact:

Robyn Fitzgerald
617-349-4650

Sponsored by:

The National Paint and Coatings Association

And Presented by:

MasiMax Environmental Health and Safety Services

How Do I Participate & What Do I Get?

1. Register online at www.lead safetraining.org. You can also fax or mail the completed form below to MasiMax EHSS and wait for confirmation of the location.
2. Attend the training and complete a brief test at the end of the session.
3. Participants who pass the test will receive a completion certificate from the U.S. EPA. This meets the requirements of HUD for training in lead-safe practices for work on HUD-funded projects. You are also eligible to be included on the National Lead Listing Web site.
